

LEAD PAINT IS A PUBLIC HEALTH CRISIS

PLEASE COSPONSOR "AN ACT TO FURTHER LEAD REMEDIATION IN RENTAL HOUSING BY INCREASING THE DELEADING CREDIT"

CC BY 2.0 Bart Everson Flickr

Children exposed to lead can be permanently impaired.
4,000 children are still poisoned each year **in Massachusetts.**

Along with Massachusetts' strong discrimination protections for families with children, **lead credits are an important tool to make progress.**

But our tax credit has not been updated since the 1970s or 1980s!
Progress has slowed.

The **cost of deleading** an average unit is **\$6,000.**
If windows are involved, the cost could be **\$15,000.**
Yet **the current credit for deleading** is only **\$1,500 per unit.**

Will you help us reach our goal of 100% of Massachusetts homes being lead safe?

**This 193rd session,
please sponsor
SD.862 or HD.2630.**

This bill has been drafted by MassLandlords thanks to the support of our 2,300+ members. Our nonprofit mission is to create better rental housing.
